Protecting & Improving
the Health of Iowans

Assuring a System of Care for Children and Youth with Special Health Care Needs – Carver's Story

When our son Carver was born, there were some complications. The umbilical cord was wrapped around him several times, and at one point, he was without oxygen and a heartbeat. The doctors didn't know what the future held for Carver, but they also didn't know what a fighter he was. After only 10 days in the NICU, we were able to take our healthy and beautiful baby boy home. Carver was a typical baby, but as time went on we noticed that his legs "looked funny" and he wasn't reaching physical milestones. After several doctor visits, Carver was diagnosed with Spastic Diplegic Cerebral Palsy, a condition which makes his legs very stiff and walking difficult. The doctor said that this was caused from the lack of oxygen during Carver's birth.

Despite all our medical visits, no one mentioned Early ACCESS. I had never heard of it either, until a co-worker gave me the name and number of an angel named Jan who worked at Child Health Specialty Clinics (CHSC). Jan is an Early ACCESS Service Coordinator and the parent of a child with special needs. She helped us set up in-home physical therapy, speech therapy, and consultations with a CHSC dietitian via Skype. Jan also helped us navigate the foreign worlds of Social Security Insurance/Disability and Medicaid for children with special health care needs. These are supports that we would not have been able to figure out on our own. Having a child with special needs can be scary and well...HARD! I am so thankful that I had another mother guiding me through those first critical years of my son's life. My only regret it that we didn't get referred to Early ACCESS the day he was born.

Did you know?

Child Health Specialty Clinics (CHSC) administers Iowa's MCH Title V program for children and youth with special health care needs in partnership with the Iowa Department of Public Health. CHSC is part of the Division of Child and Community Health in the University of Iowa Stead Family Department of Pediatrics, assuring a System of Care for all Iowa children and youth with special health care needs. Over 150,000 Iowa children and youth have special health care needs including chronic physical, developmental, behavioral, and emotional concerns. In federal fiscal year 2015, CHSC served over 7,800 Iowa children and youth and their families, providing gap-filling clinical services, care coordination, and family to family support.

Why is Child Health Specialty Clinics important to protecting and improving the health of Iowans?

- Over 20% of all Iowa children and youth 0 to 18 years of age have a special health care need.
- These health needs often impact the entire family and can require the involvement of multiple service systems.
- Federal rules require that at least 30% of each state's Title V Maternal and Child Health Block Grant funds be used to focus on children and youth with special health care needs.

Which Iowa Public Health Goals are we working to achieve?

Strengthen the health infrastructure

Promote healthy living

Prevent injuries and violence

What do we do?

- CHSC provides gap-filling clinical services including assessments of child development, health conditions, and behavioral concerns.
- CHSC has a network of 14 regional centers and satellite locations across Iowa, connecting families to specialists through telehealth.
- CHSC employs over 120 public health professionals, clinical providers, and family members of children and youth with special health care needs who work with communities to build partnerships, improve coordination of services, and promote optimal child health.
- CHSC's Family Navigators provide families of children and youth with special health care needs with individual problem-solving and emotional support. They have firsthand experience as a parent or caregiver of a child with special needs. Family Navigators work with other CHSC staff including ARNPs, Nurses, and Social Workers.

How do we measure our progress?

We employ a process of continuous quality improvement and report our metrics to the federal government every year using state and national performance measures.

1 Percent of children with special health needs (CYSHCN) ages 0-18 years whose families' partner in decision-making at all levels and are satisfied with the services they receive.

Data Source: NS-CSHCN Survey. Data are available approximately every 5 years.

2 Percent of CYSHCN ages 0-18 years who receive coordinated, ongoing, comprehensive care within a medical home.

Data Source: NS-CSHCN Survey. Data are available approximately every 5 years.

3 Percent of CYSHCN ages 0-18 years whose families have adequate private and/or public insurance to pay for the services they need.

Data Source: NS-CSHCN Survey. New data are available approximately every 5 years.

4 Percent of CYSHCN ages 0-18 years whose families report the community-based service systems are organized so they can use them easily.

Data Source: NS-CSHCN Survey. Data are available approximately every 5 years.

5 Percent of youth with special health care needs who received the services necessary to make transitions to all aspects of adult life, including adult health care, work, and independence.

Data Source: NS-CSHCN Survey. Data are available approximately every 5 years.

What can Iowans do to help?

1. Refer children or youth with special needs to CHSC by visiting www.chsciowa.org.
2. Be inclusive of children with special health care needs and their families.
3. Recognize the essential public health role CHSC plays as Iowa's Title V program for children and youth with special health care needs.
4. Discuss with policymakers the importance of a System of Care for children and youth with special health care needs and their families.

Expenditures

General fund & federal grant: K07-0703; 0153-0706

	State Fiscal Year 2015 Actual	State Fiscal Year 2016 Actual	State Fiscal Year 2017 Estimate
State funds	\$1,185,114	\$1,184,157	\$1,185,114
Federal funds	\$2,770,873	\$2,785,084	\$2,465,564
Other funds	\$0	\$0	\$709,242
Total funds	\$3,955,987	\$3,969,241	\$4,359,920
FTEs	0.00	0.00	0.50
